Inventory management is a constant challenge for pharmacies:

EVERY SHELF COUNTS!

Our Solution:

SpareLink is the intelligent layer that connects inventory together, to transform their challenges into opportunities.

One Inventory's Risks or Excess are another Inventory's Needs.

How SpareLink Works?

Inventory Optimization Engine:

Creates a Network – Tracks Inventory Movements– Assess Risks / Opportunities.

Matches and Optimize:

Match High Risks with High Needs – Calculate Optimal Prices.

It connects the Risks with the Needs in the Region

Consulting-Style Guidance:

Live Audit Inventory – Benchmark against Regional Data – Inventory Levels Recommendations – Solution for Excess Inventory / Shortages.

Secondary Supply Line:

Urgent Shortage Coverage – Discounted Prices Opportunities.

Core Benefits

Reduce Waste and Excess Stock

Generate Cashflow gains

Discounted supply line

Urgency Supply for Punctual Shortages

SpareLink cuts waste and costs while keeping operations efficient

Value for Each Pharmacy Type:

Pharmacy Chains:

- Automate and streamline inventory operations
- Rebalance stock intelligently across branches
- Unlock tied-up capital
- Secure alternative supply channels

Independent Pharmacy:

- Get started effortlessly
- Join a collaborative supply network
- Harness big-data intelligence for smarter decisions
- Cut waste and prevent overstocking
